JANE DOE

Staff Software Engineer

jane@example.com Dublin, Ireland

Two decades of platform engineering across payments, logistics, and developer tools. This fixture deliberately overflows a single page to exercise the template's page-break behaviour.

EXPERIENCE

Staff Engineer
Jan 2022 – Present
Acme Corp — Dublin, Ireland

- Led the migration of a customer-facing monolith into a set of event-driven microservices, halving p99 latency.
- Designed and rolled out an event-sourcing platform now used by four product teams across two business units.
- Mentored three engineers from mid to senior level and one from senior to staff.
- Owned the platform architecture review process and chaired the cross-team RFC forum.

Senior Engineer
Jun 2019 – Dec 2021
Liffey Labs — Dublin, Ireland

- Built and shipped the first version of a SaaS product from scratch alongside a two-person team.
- Introduced the CI/CD pipeline and developer-onboarding flow that scaled the engineering org from 3 to 15 in eighteen months.
- Designed the data model and migration strategy for a multi-tenant rewrite that ran without downtime.

Software Engineer
Aug 2017 – May 2019
Grand Canal Systems — Dublin, Ireland

- Built internal tooling adopted by the wider engineering org, including a code-review bot and a deploy dashboard.
- Led the migration of services from VMs to containerised deployments on Kubernetes across three environments.

Software Engineering Intern
May 2016 – Jul 2017
Pembroke Software — Dublin, Ireland

- Maintained a legacy reporting service serving daily extracts to enterprise customers.
- Automated a manual release process previously taking half a day.

Research Assistant
Sep 2015 – Apr 2016
Trinity College Dublin — Dublin, Ireland

- Implemented a benchmark harness for evaluating distributed consensus protocols across cloud providers.
- Co-authored two workshop papers on quorum-based replication.

Junior Engineer
Jun 2014 – Aug 2015
Iveagh Analytics — Dublin, Ireland

- Built an ETL pipeline ingesting 50M rows/day into Redshift.
- Owned the on-call rotation for the data platform.

SKILLS

Languages – Scala, Haskell, Python, Go, TypeScript

Infra – Kafka, AWS, Terraform, Docker, Kubernetes, Linkerd

Practices – TDD, DDD, Event sourcing, Pair programming

EDUCATION

M.Sc. in Computer Science
2017 – 2019
Trinity College Dublin
Distinction

B.Sc. in Computer Science
2014 – 2017
Trinity College Dublin
First Class Honours

CERTIFICATIONS

Certified Kubernetes Administrator
CNCF

Certified Kubernetes Application Developer
CNCF

AWS Solutions Architect — Professional
AWS

AWS DevOps Engineer — Professional
AWS

Hashicorp Terraform Associate
Hashicorp

Software Engineering Intern

May 2013 – Aug 2013

Phoenix Studios

Dublin, Ireland

- Maintained an iOS game's backend leaderboard service.

Software Engineering Intern

Jun 2012 – Aug 2012

Howth Robotics

Dublin, Ireland

- Wrote firmware drivers for a line of educational robotics kits.
