

JANE DOE

Senior Software Engineer

@ jane@example.com +353 1 555 0100 Dublin, Ireland janedoe janedoe janedoe.dev

Backend engineer with eight years of experience designing distributed, event-driven systems. Specialises in functional programming, observability, and developer experience.

EXPERIENCE

Senior Software Engineer

Acme Corp

Jan 2022 – Present Dublin, Ireland

- Led the migration of a customer-facing monolith into a set of event-driven microservices, halving p99 latency.
- Designed and rolled out an event-sourcing platform now used by four product teams.
- Mentored three engineers from mid to senior level.

Software Engineer

Liffey Labs

Jun 2019 – Dec 2021 Remote

- Built and shipped the first version of a SaaS product from scratch alongside a two-person team.
- Introduced the CI/CD pipeline and developer-onboarding flow that scaled the engineering org from 3 to 15.

AREAS OF FOCUS

- Distributed systems: Kafka, CDC, idempotent consumers, event sourcing.
- Functional programming and type-driven design in Scala and Haskell.
- Developer experience: tooling, CI/CD, observability.
- Engineering culture: ADRs, RFCs, mentoring.

SKILLS

Languages - Scala Haskell Python Go

Infra - Kafka AWS Terraform Docker

Kubernetes

LANGUAGES

English ●●●●●
